

UDI

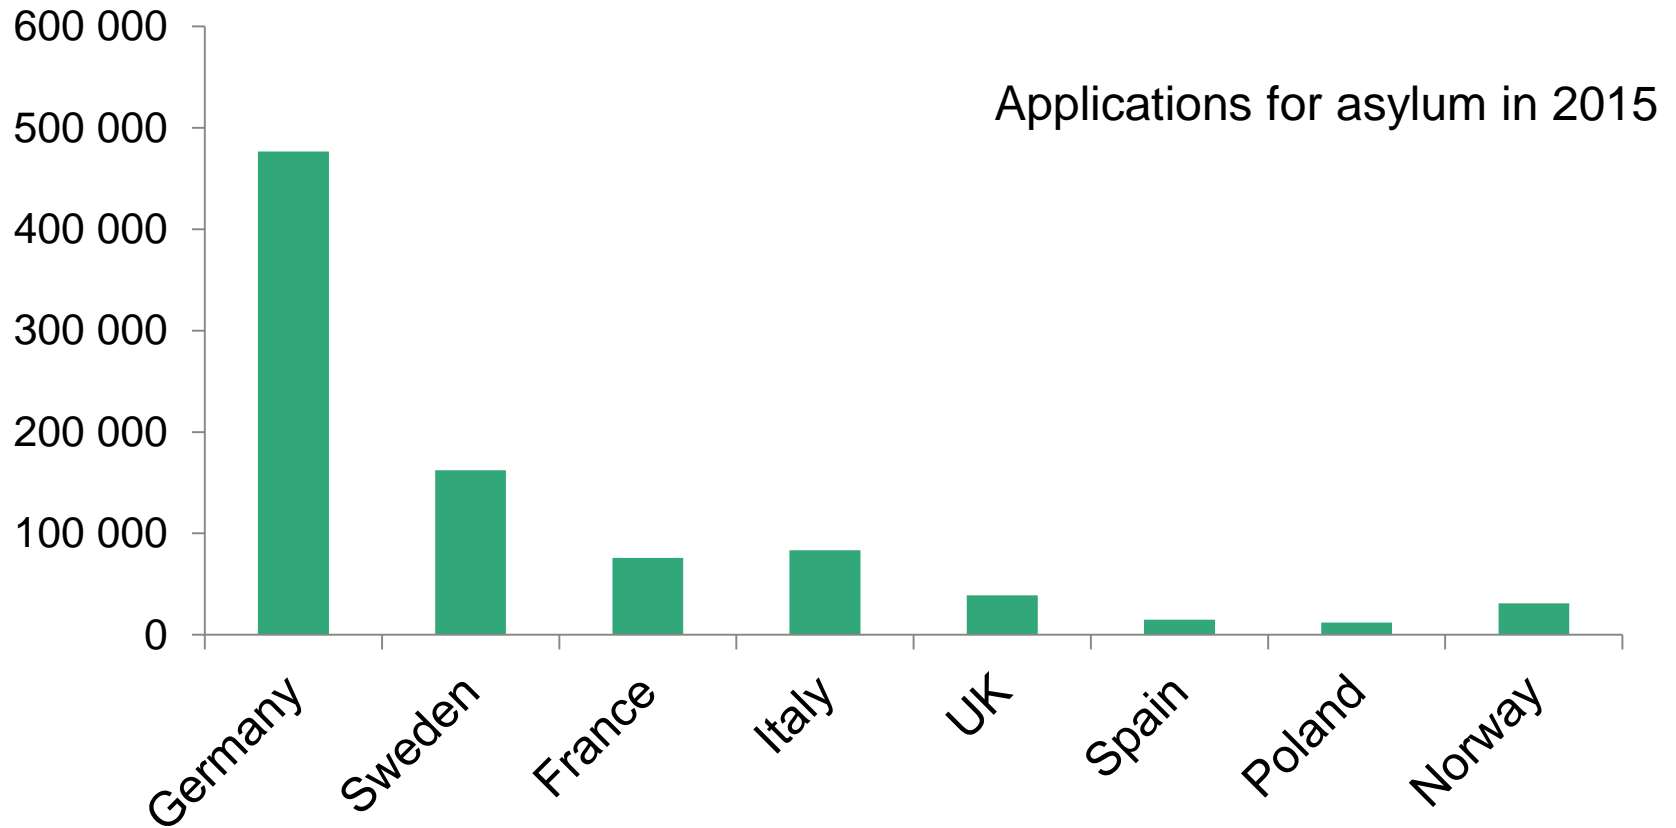

A better international refugee system?

Director General Frode Forfang

Europe's external borders

Uneven pressure on the countries

The paradox of the right to asylum

Preventing access to asylum:

- No legal access to our countries for asylum seekers
- Border controls
- Strict visa regime

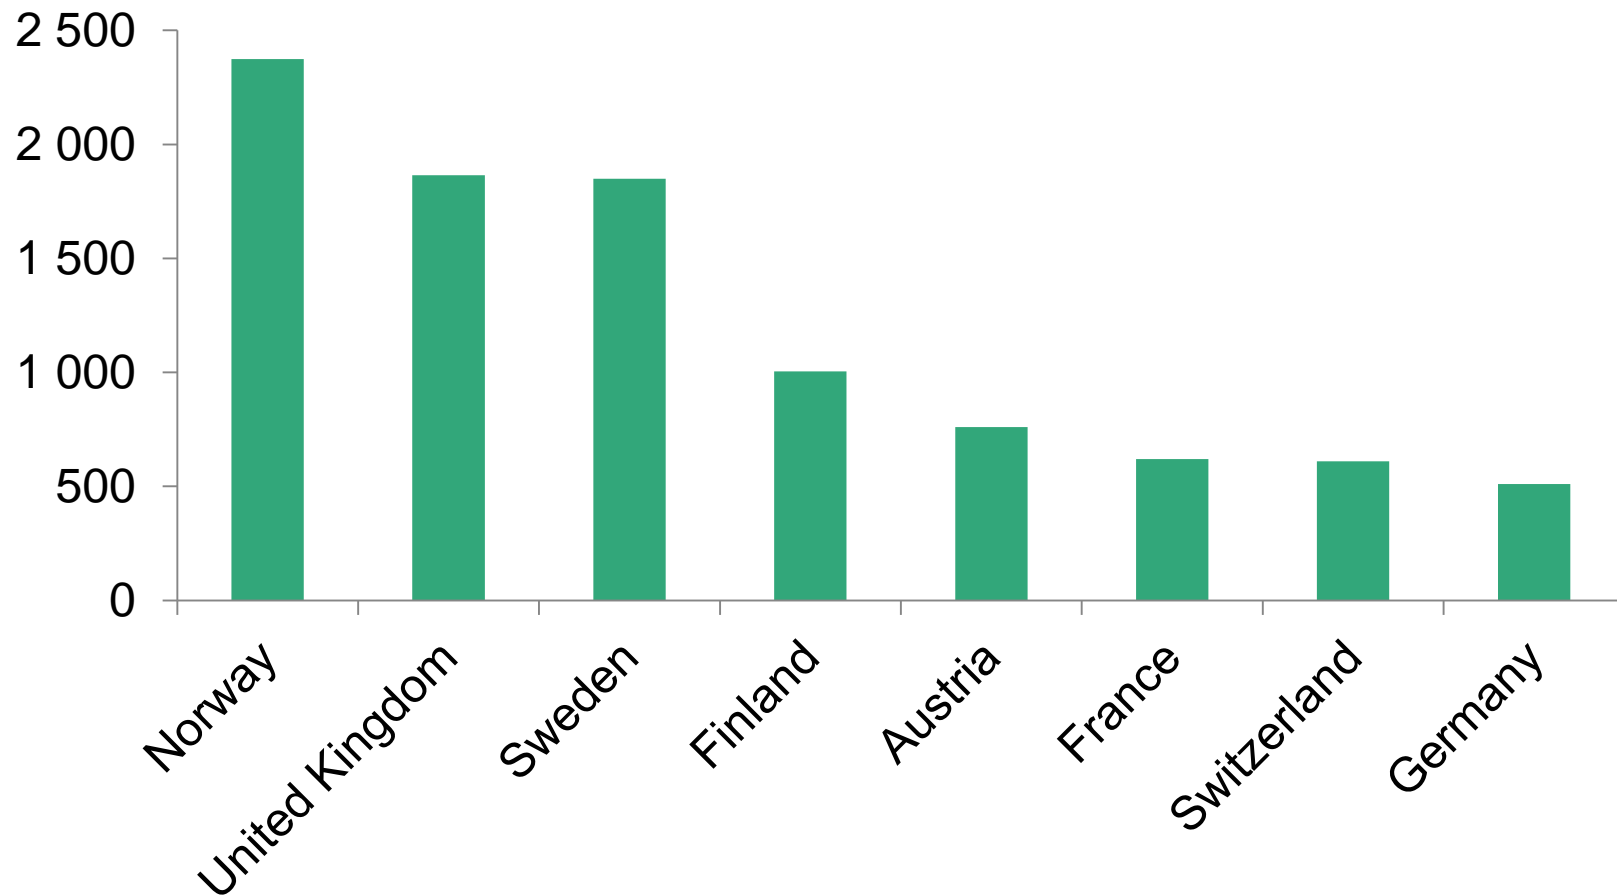

How to avoid asylum seekers:

- A race to the bottom
- Slower integration

From asylum to resettlement

- Protection need and identity screened in advance
- Security considerations
- Families coming together
- Less xenophobia
- More confidence in authorities

12 557 refugees resettled in 2015

A changed system
